Soft Skills	Worked with a big team to organise IIIT Model United Nations Proficient in communication, gained by teaching students of various ages Led the middle school student council as the headboy

PROJECTS

Lazy Amazons 2.5D: Lazy Amazons is a web-based chess 2-player game where both players have only queens(4 each). The objective is to avoid running out of moves, as the player who does so first will lose the game. Lazy Amazons 2.5D is made in unity and multiplayer implemented using Photon. Here is a link to a build and demo video of the same: <https://drive.google.com/drive/folders/1Ti8sP0qR2OQ2tLS9IB-L4Y5vFS1wuwz?usp=sharing>

BDA Labs: BDA Labs is a website designed to manage the data of projects and research papers for students working in the BDA Labs of IIIT Allahabad. The platform utilizes a NoSQL database, specifically MongoDB, to store and organize the data efficiently. Through this website, students can easily submit and access their project details and research papers. Here's the link for the same: <https://github.com/Blackfyre1/BDALabs>
